Living up to Diversity

**First International Workshop on
Group Analysis with Children and
Adolescents
10. - 12. September 2021
in Berlin**

Projected and coordinated

**by members of the
Arbeitsgemeinschaft Gruppenanalyse mit Kindern und
Jugendlichen, GaKiJu e.V.**

Living up to diversity

An understanding for group analytical processes and the development of concepts for diverse settings have proven very effective when working with groups of children and adolescents, both within the therapeutic and pedagogic fields. In the past 15 years experiences in this work have been shared and evaluated at annual workshops in German-speaking Europe. It seems timely, therefore, to create an international forum, which can profit from the insights of even more participants from different countries.

Program

Friday 10.09.21
